Twelve Persons Perish In Plane Crash At Chicago

Miami-Bound Plane Crashes Shortly After Take-Off At Chicago Airport

ONE SURVIVOR BATTLES FOR LIFE (BULLETIN)

CHICAGO, March 11.—(INS)—Twelve persons perished and one survived the crash and fiery explosion of a Miami-bound Delta Airlines DC-4 plane shortly after it took off late last night from the Chicago Municipal Airport.

Delta Airlines officials said the plane carried four crew members and nine passengers.

Crashes After Take-Off

The crash occurred shortly after the huge, four-engine plane took off in a wintry snow-swept night.

Conflicting eyewitness accounts said the plane burst into flames before the crash, while others claimed the explosion occurred on impact.

Delta Airlines officials issued a statement saying the plane burst into flames upon impact.

A multiple investigation into the crash was launched immediately, and in the early morning hours police and fire department workers were collecting the charred and twisted wreckage of the ill-fated plane for official observation.

Cook County Coroner A. L. Brodie set an inquest for tomorrow at 10:30 a. m. CST.

The CAA planned an immediate (Continued on Page Two)

Pa Newc Observes

Mrs. L. A. Pearsall reported to Pa Newc on Wednesday, that she saw a groundhog emerging from his hole near her Neshaunock Falls home. Yesterday's Spring like weather brought the old fellow out, but today he is perhaps snugled up in his lair for several more weeks.

Pa Newc Observes: I believe that anyone driving over Moravia street, notices the deplorable condition of that street at the railroad tracks. At the time Moravia street was resurfaced, an attempt was made to alleviate the condition, however, at present, it seems to be as bad as ever. Such a road condition is hard on a car and certainly causes discomfort to motorists. I believe that those sections of such a popular street should receive necessary attention. I hope that the responsible party looks into this condition. Does anyone else agree? T. A. Siglow, 10 Miller street.

Mrs. J. C. Morrow of Edenburg reports to Pa Newc that a nice robin was seen just outside her window at 4:40 p. m. on Wednesday.

The early bird gets the worm, but what an early rabbit gets outside of wet feet, we wouldn't know, but nevertheless Randall Armstrong, of the Greer building told an early rising News man, today that at 5 o'clock this morning that he saw a rabbit streaking down the middle of North Mercer street in the snow, and furthermore Mr. or Mrs. Rabbit didn't pay any attention to the red light at East Washington street, but turned the corner and ran up the street. There was nobody chasing B'r Rabbit.

New Castle and Lawrence County got a flare back of winter early this morning. Snow to a depth of a couple of inches fell and traffic conditions were hazardous for a time. Hills were blocked for a time until ashing trucks remedied the situation, because of trucks and autos seeking to make the climb on the hills without chains.

Daily Weather Report

United States weather statistics for the 24-hour period ending at nine o'clock this morning:

Maximum temperature, 42.
Minimum temperature, 18.
Precipitation, .23 inches, two and a half inches snow.
River stage, 5 feet.

Statistics for the same date a year ago follow:
Maximum temperature, 39.

Detour Will Be Required For Ellwood Road Project

(Special to The News)
HARRISBURG, March 11.—A contract for construction of .19 of a mile of concrete pavement on Traffic Route 88 (Ellwood road) in Shenango township, Lawrence county, has been awarded by the Department of Highways. The work will be done by the New Castle Duntile Co., New Castle, at its low bid of \$41,058.10.

Concrete pavement 22 feet wide on improved alignment will replace the existing 18 foot concrete. The modified alignment will eliminate using a bridge over the abandoned Western Allegheny Railroad.

Detour To Be Needed

It will be necessary to establish a detour nearly 7.5 miles in length while the work is in progress. This detour will be over improved roads. It will be over Traffic Route 388 from Energy to Weigeltown, thence by way of U. S. 422 to New Castle.

Properties affected by the improvement are owned by Lillian M. (Continued on Page Two)

Order Decrease In Bus Rates

Shenango Valley Transportation Company Rate Investigation Brings Ruling

ORDER REDUCTION OF \$93,900 A YEAR

HARRISBURG, March 11.—(INS)—The Shenango Valley Transportation Co., New Castle, was ordered today by the Public Utility Commission to reduce bus rates \$93,900 a year.

The order stemmed from an investigation, launched June 6, 1944, to determine the fairness of existing schedules in Sharon and New Castle.

The PUC reduced the company's allowable yearly revenues from \$650,000 to \$556,100 after finding rates "unjust, unreasonable and unlawful."

Order New Tariffs

The utility was directed to file new tariffs complying with the order within 30 days, the PUC reported.

The commission claimed the firm's operation under the schedule has been "consistently profitable."

The allowable operating revenue was based primarily on allowed operating expenses of \$497,000, the commission explained. Downward adjustments were not made, the agency explained, "for economies resulting from acquisition of 11 buses and retirement of five of the most uneconomical old buses."

Operating Revenues

Shenango's operating revenues for the first five months of 1947 were approximately \$22,000 higher than for the corresponding period (Continued on Page Two)

Masaryk's Death May Cause Benes To Resign Post

Report President Of Czechoslovakia Considering His Resignation

EFFORTS TO REACH BENES ARE BALKED

By KINGSBURY SMITH
(European General Manager I. N. S.)
PRAGUE, March 11.—Reports circulated in diplomatic circles in Prague today that President Eduard Benes of Czechoslovakia is seriously considering his resignation as a result of the death of Foreign Minister Jan Masaryk.

The communist-run government at the same time urged the population to remain calm in an obvious effort to avert any uprisings in the wake of the tragic death of Masaryk which was called suicide.

Shocked By Death

Reports concerning President Benes were attributed to his friends who say that the news of Masaryk's death shocked and staggered the ailing president to a point where he almost collapsed.

Private Chancellor Smutny has been with the president in the village of Sezimovo Usti since yesterday morning after Benes learned of the passing of Masaryk.

Benes, according to friends, had been clinging to the hope that if he remained in office he might be able to exert a restraining influence on (Continued on Page Two)

Maj. Gen. Meyers Defense Rests

WASHINGTON, Mar. 11.—(INS)—The defense rested today in Maj. Gen. Bennett E. Meyers' perjury trial without calling the ex-air force purchasing officer or any witness in his behalf.

Blieriot Lamarre, key witness against Meyers, immediately was called as a prosecution rebuttal witness.

Meyers, facing a possible 30-year prison sentence, is accused of persuading Lamarre to lie to Senate investigators in connection with wartime operations of Aviation Electric Corp., which the general admitted he established.

The only defense move to counter 11 days of prosecution testimony was a detailed history of the formation of the Senate war investigating subcommittee, which first spotlighted Meyers' alleged profiteering.

Chief defense counsel Robert Bushnell attacked the legality of the subcommittee.

Meyers' attractive blonde wife, the former Ila Rhodes, ex-film actress, was in court for the first time as the case neared its close.

Bushnell said earlier that if Meyers did not testify "the decision will be mine," not Meyers.

Two-Inch Snow Fall Brings Out Plows

A two inch snowfall which blanketed the county early this morning called out cinder crews and snow plows to make the highways safe for local and through traffic. Cinder crews were alerted shortly before 3 a. m. and were out on the roads a few minutes later. It was learned from Alfred Martin, county superintendent of highways.

At 7 a. m. an inch and a half of snow had fallen, with this increasing to two inches necessitating the calling out of the plows. The men and equipment planned to remain on the roads until the situation was under control. In some areas the snow was drifting, necessitating special attention, according to Mr. Martin. Generally the snow was wet in most areas.

Marshall Silent On Suicide Claim In Czech Tragedy

By JOHN A. REICHMANN
(U. S. Staff Correspondent)
WASHINGTON, March 11.—The state department refused today to accept the label of "suicide" on the death of Foreign Minister Jan Masaryk, but cited it as evidence of the "reign of terror" which exists in Czechoslovakia.

Secretary of State George C. Marshall interpreted Masaryk's sudden and mysterious demise as a warning that the communist coup in Czechoslovakia justifies "great fears as to developments" in a world finding itself in a "very serious" situation.

Marshall's words came in the midst of a news conference and appeared unprompted. But they carried all the great force and feeling which the stoic soldier and World War II chief of staff can show on occasion.

Does Not Answer
When questioned directly on whether the United States considered Masaryk's death as "suicide" he refrained from answering.

Marshall's outburst, which he permitted to be placed in direct quotation only after careful perusal came in response to a reporter's question.

This asked whether, in view of the possible communist coup in Italy, events in Czechoslovakia and even talk of war, he could make any direct statement. Marshall replied:

"I think you correctly described the situation in your question, that there are great fears as to developments."

"There are also very strong feelings regarding these developments and a considerable passion of view on the part of a great many in this country. The situation is very, very serious."

Arthur Mommeter

My neighbor sings of the "good old days" when butter was twenty a pound, and in any shop that a butcher kept, plenty of steaks could be found. He tells of the days when the street cars ran, if you wanted to travel far, but I notice that he doesn't travel that way, he owns an eight cylinder car. And those good old lights made of kerosene you never can see at night, his home is brilliant with the glow of modern electric lights. His wife cooks meals on a modern stove, not one that is fed by wood, he talks of the old days of long ago but the modern days of long ago are but the modern days of the "good old days" it's only an act I'd say, for modern methods he's using now, and it's 28 today.

House Committee Makes Accusations In Dr. Condon Case

WASHINGTON, March 11.—(INS)—A House Un-American Activities Subcommittee prepared an official report today accusing the commerce department loyalty board of "laxity" in its clearance of Dr. Edward U. Condon.

The subcommittee, headed by Rep. Nixon (R) Calif., charged that the Loyalty Board had limited its investigation to the "individual loyalty" of the noted atomic scientist but disregarded any "alleged associations and indiscretions" he may have been guilty of as head of the U. S. Bureau of Standards.

The group, which conducted a preliminary investigation of the commerce board procedures, declared in a news release that the department's loyalty finding took no account of whether his associations "did or did not" constitute a security risk.

Secretary of Commerce Harrison attacked the committee's statement and charged the group with committing an "Un-American" act by publishing what he said was its interpretation of secret testimony given by three members of his staff. He described the release as "misleading."

The subcommittee members also charged that the board took no steps to deny Dr. Condon "access to top secret or classified data" during the 10 months he was under investigation.

Branch office in Beaver Falls on business.

As they reached the top of Garrett Hill, Kotwica claims that he went into third gear on account of the bad condition of the highway, when suddenly he noticed the ashing truck and a stalled truck on the highway ahead of him.

He states that he applied his brakes, but added into the back end of the ashing truck, which was headed downhill. The ashing truck, according to highway department officials, was loaded with about three tons of ashes, and was turned around three times on the highway.

Mr. Mathieson and Mr. Anderson were throwing ashes at the time, and were thrown from the truck. The driver of the ashing truck, Fred Corryea, aged 41 years, of R. D. 6, Mercer, was uninjured.

It was stated, Kotwica, driver of the trailer truck which struck the ashing truck, suffered contusions and abrasions of the left thigh and left elbow.

The body of Mr. Hodierlen was removed to the Hodge Funeral home to be prepared for shipment to his home at Rome, N. Y.

MASARYK'S DEATH MAY CAUSE BENES TO RESIGN POST

(Continued from Page One)

the communist government, especially as far as purges are concerned.

But the fact that Masaryk was driven to suicide is said to have caused him to reconsider his decision.

Chancellor Smutny's office in Prague said that Benes had not resigned "up to this morning."

Contact Cut Off

This statement seemed indicative of important events in the president's country residence. Also the possibility appeared that he is being cut off from contact with the outside world.

For the first time since he went to Sezimovo Usti telephone calls to him there are being refused.

This correspondent has talked almost daily with his niece, Jolana Benes, by telephone. But today when the writer tried to call he was told that he could not speak to anyone in the president's household.

This was the case despite the fact that Miss Benes has given prior assurances that she could be called at any time for a check on rumors.

Later the post office in Prague said they were accepting no calls except those booked by the government.

May Not Resign

Foreign diplomatic observers believe that Benes, under strong government pressure, might not resign at present. And there is the possibility that if he did resign the communist dictatorship would refuse to accept it or at least refuse to reveal the resignation publicly.

Also it is believed the government might try to get Benes to return to Prague to participate in Masaryk's funeral.

Meanwhile the communists resumed their efforts to blame western propaganda for Masaryk's act.

The newspaper Mlada Fronta—Youth Front—asserted that a London broadcast Tuesday night seriously affected Masaryk.

According to the newspaper, the London broadcast attacked Masaryk personally by declaring his association with the new Prague government was an act of "treachery against democracy."

In Memoriam

In memory of our Mother, Anna Nosik who died one year ago today, March 11, 1947.

"Dearest the memory than words can tell

The loss of our Mother whom we loved so well.

We loved her, yes we loved her, But the Saviour loved her more, So God sweetly called her To that bright and happy shore, We miss her, yes we miss her, We miss her everywhere, Home is not what it used to be Since dear Mother is not there, The flowers we place upon her grave, May wither and decay, But the love for you, who sleeps beneath, will never fade away. If we had the world to give We would give it, yes and more To see the face of the one we loved Come smiling through the door, Gone is the face we loved so dear Silent is the voice we loved to hear, 'Tis sad, but true, we wonder why The best are always first to die."

Sadly missed by daughters and sons,

In Memoriam

In memory of our Mother, Anna Nosik who died one year ago today, March 11, 1947.

"Dearest the memory than words can tell

The loss of our Mother whom we loved so well.

We loved her, yes we loved her, But the Saviour loved her more, So God sweetly called her To that bright and happy shore, We miss her, yes we miss her, We miss her everywhere, Home is not what it used to be Since dear Mother is not there, The flowers we place upon her grave, May wither and decay, But the love for you, who sleeps beneath, will never fade away. If we had the world to give We would give it, yes and more To see the face of the one we loved Come smiling through the door, Gone is the face we loved so dear Silent is the voice we loved to hear, 'Tis sad, but true, we wonder why The best are always first to die."

B. P. W. HAS DINNER PROGRAM WEDNESDAY

For the March dinner of the Business and Professional Women's club in parlor A of The Castleton Wednesday evening, with the education committee of the club in charge of the program, members heard Attorney Roy M. Jamison talk on "Wills".

Atty. Jamison was introduced by Miss Nannie Mitchell, chairman of the education committee. Others on the committee are Mrs. B. F. Johnson, Miss Elizabeth Albert, Miss Rose Barber, Miss Olivia Griffiths, Miss Myrtle Lord, Mrs. W. A. McNally, Miss Ethel Pitzer and Mrs. Winifred Robertson.

The speaker talked informally but clearly and interestingly on the subject of "the disposition of one's effects". He explained the requisites for making a will, the three types, and mentioned such matters as charitable bequests, children, trusts, etc. A will, he said, should be as clear and concise as possible while still being explicit. At the close of his talk he answered numerous questions from the audience of more than 80 B. P. W. members.

During business with Miss Evelyn Spencer presiding, the club voted \$15 to the Jameson Memorial Hospital Aid society.

Elected to attend the district B. P. W. meeting in Ellwood City on April 10 as representatives from the New Castle club were the Misses Dorothy Long, Helen White and Jessica Jenkins. Named alternates were Miss Grace Browne, Miss Olive Webb and Mrs. James VanGorder. Reservations for the meeting are to be in by April 5, members were advised.

Miss Florence C. Davis is the club's nominee on the district slate. A report of the finance committee by Miss Mary Bigley revealed that a large crowd is anticipated for the B. P. W. style show this evening in the Cathedral for the benefit of the Cancer Detection Center.

Mrs. James Vogan announced that the center is open and that any well person may register for an examination for a small fee and urged members to apply for an examination.

Executive board meeting of the club will take place March 17 in the Y. W. C. A. and the next regular meeting of the club will be April 14 when the international relations committee will be in charge of the program.

Mike Keeps On Sending Money, Has Paid Debt

Cambria County Officials Would Like To Contact Father Of Teen Somewhere In Ohio

JOHNSTOWN, Pa., March 11.—(INS)—Mike Buydos is a man after Diogenes' own heart. But where Diogenes searched vainly for an honest man, Joe Weiss, clerk of courts of Cambria County, would like to find Mike to tell him his debt is more than paid.

For the past 11 years now, Mike has been mailing \$1 a month to Weiss to pay off a \$127 debt incurred when he was ordered to pay court costs and doctor bills for taking a poke at a man in Barnsboro back in 1937.

Mike hasn't missed one payment in all that time. Rather he has overpaid the bill by \$17, and still the \$1 a month keeps coming. When Weiss tried to advise Mike by mail to stop sending the money, his letter was returned "address unknown."

Father of Ten
Mike has been sending his \$1 a month from Newton Falls, O., where Postmaster Lester B. Griffith said that Mike had been in again last Saturday and sent another \$1 money order.

Weiss said that he has found out that Mike lives in Niles, O., works in Warren, O., and uses the post office at Newton Falls. He has a wife living in Barnsboro and is the father of 10 children, four of them living in Barnsboro, Weiss stated.

But for some reason, Weiss added with a shrug, he just can't seem to be able to get in touch with Mike to tell him, please, don't send any more money.

Employment Trend Lower In January

HARRISBURG, March 11.—(INS)—A reversal during January of a six months steady upward employment trend in manufacturing industries was noted in a report released to day by the Department of Labor and Industry. Manufacturing firms dropped 13,900 persons from a total payroll of 1,528,000 at the end of 1947, the department said.

The layoff was the largest among employers who furloughed 95,400 workers, lowering non-agricultural employment to 3,567,800 persons. Much of the decline was attributed to release of temporary holiday workers an seasonal help.

The employment rate of all non-manufacturing industries remained above levels of January, 1947.

FALSE TEETH

That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you just sprinkle a little PASTETITE, the alkaline (non-acid) powder on your plates. Holds false teeth more firmly so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get PASTETITE at any drug store.

the department said, but those of manufacturing firms were somewhat under last year's rate.

Today's Question About Red Cross

What is the extent of Red Cross disaster relief each year? Figures for the past 20 years which show an annual average of 144 disasters in which the Red Cross has taken an active part in relief. Each year an average of 323,200 persons have been aided.

Four Men Held In Connection With Nine Robberies

SCRANTON, Pa., March 11.—(INS)—Four men were held without bail in prison today at Scranton in connection with nine robberies allegedly netting them about \$1500.

Guilty pleas were entered before Magistrate Terence Murphy by Joseph Rogers, 45, and Joseph Boyle, 33, both of Wilkes-Barre, and Frank Politz, 35, of Ashley. Leonard Novak, 29, of Wilkes-Barre pleaded innocent.

Detective Capt. Edward Kelly, who estimated the loot, said the

money was taken from stores and service stations.

Murphy said that Politz and Rogers would be handed over to Schuylkill county officials later this week for trial on a charge of attempted robbery along with Henry Turkes Jr. of Wilkes-Barre. Politz and Turkes were wounded in a gunfight with State police following the attempted robbery of the Colitz Coal Co. in Pottsville.

PAIN-EXPELLER

Ben Johnson, English poet, was really the first poet laureate, although the title was not officially conferred upon him, and did not come into use until some time later. King James the First, in 1616, gave him a pension of 100 marks, however, and wished to dub him knight because of his literary achievements, but the poet declined.

The troop has decided to discuss a chosen subject of interest each week. The high-lights of the painting of The Golden Gate Bridge, for individuality and neatness. Gerry Calvert won credits; Betty Perchaw won credits for most difficult map; Jean Kumrow, for neatness and detail; Shirley Hanna for distance and routes. The various patrols rehearsed their songs for music week in May.

In the dining room, 22 sat down to a delicious chili supper, furnished by Mrs. W. R. Weisbaker, a new member of the troop committee, and Mrs. F. Barattiero.

Next Monday, the meeting will be in form of a St. Patrick Day party, with stunts by each of the patrols, and patrol leaders will be in charge the entire evening. Assistant patrol leaders will be chosen at that time.

AT HER STEPDAUGHTER'S MARRIAGE

"Several years ago, I married a widower with a small daughter. Shortly after our marriage, she was adopted by her aunt who reared her from the time of her mother's death. Recently, she was married and my husband and I were invited to both the ceremony and the reception. At the evening, the aunt asked my husband to escort the groom's widowed mother up the aisle and sit with her which necessitated my going alone. Since the groom's mother has a grown son who was present with his wife, don't you think he should have escorted his mother? I feel that perhaps I should not have attended the wedding at all. What do you think?"

Answer: Since you were invited, it was perfectly proper for you to have attended the wedding especially since, although you are the second wife, your predecessor is now dead. It is only in the case of a divorce when a meeting of both wives would create an embarrassing situation that the second wife should not attend the wedding of her stepchildren. Logically I think the groom's mother should have walked up the aisle with her other son, but I suppose the aunts thought they were being gracious in appointing the bride's father to escort her.

Question: What is a "junior bridesmaid?"

Answer: Something between a flower girl and a bridesmaid. Sometimes when the bride has a young sister, at this "in between" age, whom she wishes to include in her wedding party, she will make her a junior bridesmaid.

Question: A friend of mine carried a red bag and wore a red hat while attending a funeral. Although the deceased was not a relative, this woman did go to the cemetery. Don't you think such bright colors are out of place at a funeral?

Answer: While it is not necessary to wear black, one should avoid wearing bright colors at a funeral. The family of the deceased should, of course, wear mourning clothes.

WASHINGTON CALLING

gime is more corrupt and has less popular support than the group in power in Athens a year ago. Conditions must be attached to any aid given to Chiang Kai-Shek.

Must Be Reforms
Reforms must at least be undertaken in good faith. Otherwise any U. S. aid will be thrown away. Not even in Nationalist China will it help to win the mass of the Chinese people.

There are warning signs which must not be ignored. Some weeks ago, anti-British riots occurred in Nanking and other cities. The easy thing was to dismiss these as Communist-inspired. But the British did not try to disguise the fact that these demonstrations could not be so lightly dismissed. They came out of deep resentment of foreign exploitation and doubt of a government that seemed to lean on foreign support.

The question of what can be done for Nationalist China should not be fought over in "partisan" politics. Of primary importance is the reconstruction of that area where American interests are immediately, directly and vitally concerned—western Europe. Anything that diverts attention from that vital goal serves by that much to weaken America's position in the world.

whether or not desirable. It may be that we have followed the course termed in the McKinley-Bryan election contest of 1900, "manifest destiny." Speculation on what Washington would do or say in the present age is wholly futile. In any case, our entanglements have spread to such dimensions and involve so many complexities, that it might be difficult for even the wise "Father of his Country" to disentangle us.

It is not isolationism, however, to pause and wonder—to resort to a homely old expression—whether or not we have "bitten off more than we can chew." In spite of our tremendous resources, our vast potential military strength, our superior skill and genius, there is a limit to our capacities. Six per cent of the world's population, however efficient, takes on a crushing burden in trying to feed fifty per cent or more of the population. It assumes equally heavy responsibilities in trying to maintain peace and justice among peoples for the most part wholly unfamiliar with American ideas and in the case of several hundred millions actively hostile to these ideals.

There are over 150 tribes of American Indians represented on reservations in the United States.

Work-Relief Act Is Inoperative

Local Aid Projects In Pennsylvania Are Nearly Non-Existent

By JACK WARD
(U. S. Staff Correspondent)

HARRISBURG, March 11.—The Pierson State-Work Relief Act, designed to force work to employables on public assistance rolls, is virtually inoperative, it was reported today by Deputy Secretary Robert P. Wray.

Record peacetime employment with resultant low numbers of employable persons has virtually eliminated the need for local aid projects in Pennsylvania, according to Wray.

Enacted in 1939

The law, enacted in 1939 when the state's unemployed numbered 2,000,000, requires all employable relief recipients to "work off" public assistance grants.

Pointing out that Pennsylvania's unemployed total only about 300,000, Wray explained that employables who would be affected by the act "are not on relief rolls today."

"The law is still on the books and local governments still can set up projects if they desire," he said.

"Our energies presently are devoted to obtaining private jobs for workers on relief, rather than giving them job to work out their relief allowance."

He explained that the work-relief program largely has been inactive since the war years when unemployment dropped to the all-time low of approximately 200,000 persons.

Only Seven Projects

Currently there are only seven projects in operation to aid workers on relief, Wray said. Five employing 40 persons are located in Lackawanna county where unemployment is prevalent, and two each are located in Northumberland and Lebanon counties. Each of the latter employs a single person, he added.

"Jobless workers on relief are so scattered and administrative costs so high in relation to the number of unemployed, that conditions do not warrant establishment of projects," he explained.

Wray related that since its inception, more than \$17,000,000 in relief grants has been "worked out" by persons on local aid projects.

Less than \$3,000 a month is being worked out at present, he said. In nine years of operation, 763 projects have been completed and 2500 others abandoned for lack of sufficient labor, he added.

Two All-Negro Guard Units Is Plan In State

New PNG Units Will Be Located
At Pittsburgh And Philadelphia, Plans Announced

HARRISBURG, March 11.—(INS)—The department of military affairs has received federal authorization to establish for the first time, two all-Negro battalions in the Pennsylvania National Guard. It was announced today by Adjutant General Frank A. Weber.

The new units will be the 64th and 65th Engineer Combat battalions stationed at Philadelphia and Pittsburgh respectively.

Weber said activation orders for each battalion probably will be issued later this month.

Plans Mapped

Plans were mapped for organization of the units during a conference yesterday at Harrisburg with five Negro officers of the former Pennsylvania Guard, the wartime home defense organization disbanded nine months ago, according to Weber.

Unit officers unanimously agreed that authorization of all-Negro outfits was preferable to authorization for "mixed" enlistment, Weber said.

Each battalion will have a top

strength of 31 officers, three warrant officers and 499 enlisted men, distributed among a headquarters, headquarters and service company, a medical detachment and three line companies.

The Philadelphia unit will be attached for administration and training to the 118th AAA group, commanded by Lt. Col. Arthur D. Bertolett. The Pittsburgh unit will be assigned to the 218th AAA group, commanded by Col. Vincent P. Lupinacci. The parent command will be the 51st AAA brigade commanded by Maj. Gen. Charles C. Curtis, Allentown.

How to help Mom with the dishes!

DISHWASHING is no fun. Probably never will be. But it can be made a lot easier with the help of soft, cool fluorescent lighting.

WHAT YOU NEED

For general illumination in an average size kitchen, lighting experts recommend a ceiling fixture with two 40-watt fluorescent lamps. And fixtures for supplementary lighting over the sink, as in the illustration above, and over the range and working areas, will give even more of a lift.

That will help Mom with the dishes and encourage other members of the family to help also. Be sure you get the right kind of fixture and the right-size lamps for each job.

TURKEY CROP REDUCED

HARRISBURG—The State Department of Agriculture announced today, following hatchery production surveys by the Federal-State Crop Reporting Service, that production of turkey poults, which was getting under way by the first of February, reflected a lack of interest due to the relatively unprofitable season experienced by many growers in 1947. Intentions to raise turkeys in Pennsylvania this year indicates a crop of little more than one million birds, 24 per cent below last year.

Around Hollywood

By JOHN TODD

International News Service Staff Correspondent

HOLLYWOOD, March 11. — (INS) — Newspaper people who cringe everytime they see newspaper people portrayed in a movie, can stop cringing.

Hollywood high-shots are finally getting savvy to the fact that all reporters are not (1) insurable dipsomaniacs, (2) do not loudly tell their publishers how to run the papers, and (3) wear the same shirt for weeks on end.

In other words, the old movie conception of a news reporter as a hard-drinking, fast-talking guy with a battered hat is taking another beating.

Jimmy Stewart portrayed a reporter who actually looked, and acted like a reputable citizen in "Call Northside 777."

Now Tyrone Power comes along as a foreign correspondent who keeps his pants pressed.

Power even wears neckties and clean shirts in a new Twentieth-Century-Fox flicker called "For

Fear of Little Men." His drinking is restricted and he speaks intelligent English. He looks like a young businessman.

Ty's only affectation is a pipe. The studio couldn't resist the pipe. It's supposed to denote that Power is a heavy thinker.

"But that," he said today, "is not out of place, after all, there are plenty of foreign correspondents who do smoke a pipe."

Little Bit Late

Evelyn Keyes, the Columbia glamour gal, received a letter the other day from Universal studios offering her a screen test. The dispatch was dated June, 1937.

Seems as how some house wreckers in Atlanta, Ga., knocking down a domicile where Evelyn's folks used to live, found the letter. It had been shoved into the wall near an old mailbox.

Evelyn explained: "I had tried out for that screen test in an Atlanta movie theatre—and then never heard from Universal Studio. The following year I came to Hollywood on a visit. People told me I should be in pictures. I told them that's exactly why I was here."

Has Hit Stardom

Evelyn—after ten years of doing

walk-on parts and saying "How now, brown cow" for DeMille drama coaches—finally has hit stardom. The nation's film exhibitors recently voted her the "Star of Tomorrow," mainly on her work in "The Jolson Story."

Now co-starring with Glenn Todd in "The Making of Mille," the cutie-pie declared:

"I'm glad I didn't get that job at Universal 11 years ago. The girl who got it, I remember, came back home in about three months."

Half-Million Home Gardens Will Be Planted

Amateur Gardeners Revising Interest in Planting Own Gardens This Spring And Summer

By JACK WARD
(N. S. Pennsylvania Farm Editor)
HARRISBURG, March 11—Despite a waning interest in home gardening from war-time peaks, more than half a million amateur gardeners in Pennsylvania are expected to grow their own fresh edibles this spring and summer.

Agriculture Secretary Clinton Anderson has called for 20,000,000 "freedom gardens" throughout the nation to aid in the European recovery program by taking the "pressure of demand" off scarce foods.

Urging Pennsylvanians to take an active part in combatting inflation and aiding hungry Europe, State Agriculture Secretary Miles Horst declared that "it is just as important now as it was during the war" to plant home gardens.

"Home plots can aid materially in keeping costs down and maintaining a good supply of fresh and nutritious food," Horst said. "It will benefit every family that possibly can to plant a home garden."

Pennsylvania's home gardening goal during 1947 was 1,000,000 plots, but the Commonwealth fell short, chiefly due to the lack of patriotic "incentive" which sparked

the victory garden program during the war, Horst explained.

Since the national goal is much less for 1948, Pennsylvania's share will approximate 500,000 gardens, he added.

State Agriculture Department figures show that commercial vegetable growers are expected to plant approximately 36,500 acres during the year—the same acreage as in 1947.

A contribution of a barrel of flour to the "Friendship Train" has had gratifying returns for the Pennsylvania Producing and Marketing Committee.

A letter to John A. Smith, PPMA secretary, from a French Red Cross worker in Strasbourg, expresses a

minute portion of the town's gratitude.

Addressed to "Dear Unknown Friends," the letter explains that the Friendship Train "was a great benediction for us," and its gifts of precious food "dazzled our eyes."

The woman Red Cross aide described condensed milk, sugar and "oat flakes" were distributed to 12,000 pre-school age children whose mothers had nearly despaired of seeing such items again.

"We wish to thank every American," the woman wrote.

Neither Erie nor Reading had a single death from typhoid fever during 1946 and no large city in the nation has a death rate of more than two per 100,000 per annum due to this disease.

DON'T TELL ME

I know the food stores saves their customers money better than a bank. When you put money in the bank you can get it back but when the grocery boys get hold of it once, it's just too bad. Yes, we really save you're dough, my customers tell me they feel better than a millionaire. I have saved them enough to buy new homes, cars, beside they enjoy best of health. "Most say. Haven't BEAN in doctor's office for year."

Some even complain of feeling so much better since they found a place to buy, "tender cut meat." Why! They don't even think of using a car or bus so much energy, just walk.

They even get more done now in two hours than they ever did in one before.

At Meat Dept. you never see our meat men haggle and cut trying to give our bones a shave, they just whack them in to and give you half. Who would think of wanting a steak juicy, our steak are not juicy. They will stand up under most rigid cooking. You cannot be dissatisfied or disappointed even if you expect the worst in meat.

Now, you may not need meat but how about eggs. These eggs are something you will crow about. You will not have a peep in a carload. Eggs 51c a doz. While they last.

Fresh from the churn to you. Churn Gold Oleo, 39c lb. or 2 lb. 75c.

If you have not had your share of Sauer Kraut, here's your chance. It's Lang's long tender cut, large can, 27 oz., 2 for 21c or 11c can.

This will make your kraut tasty, corn beef. Invite "Dinty" over, 12 oz. can 45c.

This down will tickle you. Swansdown flour is down in price. 37c a large package.

Here is some coconut for your cake, 4 oz. package 15c. It's Durkees.

If you need aid in your washing problems, here is an opportunity. Full gallon of Try Aid. If you do not want to pay 39c, will sell for 29c gal. Here is an ox to work, led Oxydol pull the dirt out 35c package or 3 for \$1.00.

Sweep away your troubles, if you do not push too hard handle should last at least one month. Price of complete broom \$1.29—"Mercer Maid."

Delmonte Golden Corn is still a good buy at 2 cans for 31c.

Peaches picked, peeled, sliced and canned in heavy syrup, two 20 oz. cans for 35c, brand Dolly Madison.

Ring the bell at any time. It's Ding Dong Coffee, even if you do not like coffee, would advise you not to try it. Its fully aged flavor is so pleasing to your nose you will enjoy and relax from its aroma. One sniff may satisfy you. 3 lbs. for \$1.13.

Don't pay over ceiling price for the following items, 10c per each.

Muller's Elbo Macaroni, 8 oz. pk.; Tomato Juice, 20 oz. can; Jackson's Pork and Beans, 16 oz. can; Golden Dawn Shoe String Beets, 16 oz. jar, Red Pimento, 4 1/4 oz. glass; Old Fashion Dill Pickle Chips, pt. jar.

You may never again see so much celery again for 10c or 2 for 25c. It's pascal giant stalk. It will snap back at you.

Due to the mild winter, there is an unusual large crop of green peppers selling at low price of 20c per lb. I don't know why you want turnips unless you like them. They have their tops off, faces washed, selling at 3 lb. for 17c.

Frozen for your convenience, garden fresh, peas or spinach, 20c package.

You will be back for more, better buy what you need when in. It's Hunt's pure peach and pineapple preserves, one pound jar 20c.

I would not think of wanting any of my competitor's customers coming to trade at my store. I feel this would be an unfair practice in our profession. Just come in and look around, you may see a "Walking Man" with Duz.

For those who use customer's parking lot and do not care to trade at Brenneman's store, please leave name and address in store. This will insure towing away the right car. Sorry towed out customer's car last Friday.

Red Cross is calling. You may need them next, be next to give.

Butler Planning New County Jail

BUTLER, Pa., March 11.—(INS)—The Butler county commissioners said today that they definitely plan to build a new jail within the next few years.

The new tax levy will include an extra mill for the building fund. The new levy is expected to produce \$302,500.

The money for the jail will allow to accumulate for several years. In the planning of the new jail the commissioners contemplate providing quarters for a number of courthouse officers.

The present 80-year-old jail has not had any repairs in 50 years.

WHAT'S THE HURRY

Accidents cause many deaths and a lot of misery. Many accidents are due to people getting in a hurry. Impatience may be a cause too. There is a line of autos on the highway. One car pulls out of line to pass the other. Bang! Another accident.

Bobby picks up a gun that is not loaded. Bang! Tally one. Poor swimmers go in where the water is too deep. Help! Another drowning.

Sally hurries across the street! Bing. Call the ambulance. There are lots of articles about preventing accidents. People do not read them. They are in too big a hurry.

60 LICENSES REVOKED
HARRISBURG—During the week ending February 27, the Bureau of Highway Safety withdrew the cards of 476 drivers. Of this number 60 were revoked and 416 suspended. Operating privileges were restored to 222.

JOBLESS PAYMENTS
HARRISBURG — Ramsey S. Black, state treasurer, announced that unemployment compensation benefit payments to jobless Pennsylvania workers during the week ended February 27, 1948, totaled \$927,470 paid in \$3,607 checks.

Jeannette School Teachers Turned Down On Request

JEANNETTE, Pa., March 11.—(INS)—Jeannette school teachers today appeared before the school board to request a raise for another year without a raise as the school board said "no" to a second bonus request.

The board did promise it would consider the Jeannette Teachers' Association's request in next year's budget. They made no commitments though.

The directors said that while they appreciate the fact teachers are underpaid, they have an obligation to the taxpayers. The board added it would be receptive if the teachers could get the taxpayers to go along. They suggested the teachers sponsor a mass meeting to get the taxpayers point of view.

The teachers shied from such a suggestion. They claimed as the board represents the people, it is the board which should go to them.

Name Gus Slovosky, Robert Georgia Heads Of Y.M.C.A. Divisions

GUS SLOVOSKY

ROBERT GEORGIA

General Chairman S. Glenn McCracken today named Gus Slovosky and Robert Georgia leaders of the two divisions in the coming Y. M. C. A. membership campaign which will get underway in the community March 23.

Mr. Slovosky, a well-known sportsman and merchant of New Castle, will lead the "Red" group, while Mr. Georgia will be in charge of the "Blue" group. Both division heads will select 10 team captains in the near future to supervise the working groups during the effort.

Gus Slovosky has been a member of the Y. M. C. A. branch for the past 25 years, and has always taken an active interest in community affairs and the growth of the "Y" movement. He is a for-

mer member of the original "Castle Five" basketball team and is a member of the Zionists, the B'nai B'rith, Cosmo club and is a charter member of the Optimist club of this city.

Robert Georgia, who came to New Castle two years ago, is the manager of the Household Finance company and has proved a dutiful worker in the city's civic affairs, taking a keen interest in boys' and men's functions at the Y. M. C. A. He is a member of the Kiwanis club.

Both appointed leaders promise a spirited bid for members during the campaign, and a friendly rivalry has already been evidenced among the men and boys making up the competing divisions. The goal this year is 1,200 members.

Further Reports In Campaign Of Sunday Schools

Following additional reports are given for the eight weeks Pre-Easter increase campaign being sponsored by the Lawrence County Sabbath School Association in which 75 Sunday Schools in Lawrence county, are enrolled. Good progress is being made in meeting the goals of an increase in Evangelism, Sunday School attendance, church attendance and Bible study.

In Pulaski District the King's Chapel Methodist Sunday school had an attendance March 7 of 107 which gave them a total of 165 points and the high percentage of 2.713. March 7 attendance figure is not in as yet, but they have a total of 15 points for the previous Sunday and a percentage of .366. The attendance figure for the Mahoning U. P. for March 7 is not in as yet.

In Slippery Rock District the attendance for the Princeton Presbyterian Sunday school was 145, which gave them a total of 66 points and a total percentage of .568. Last Sunday the Unity Baptist Sunday School of Harlanburg had an attendance of 79, and the attendance for last Sunday of the Plaingrove U. P. is not in as yet.

In Slippery Rock District, March 7 attendance for the Plaingrove Presbyterian Sunday school was 145, which gave them a total of 66 points and a total percentage of .568. Last Sunday the Unity Baptist Sunday School of Harlanburg had an attendance of 79, and the attendance for last Sunday of the Plaingrove U. P. is not in as yet.

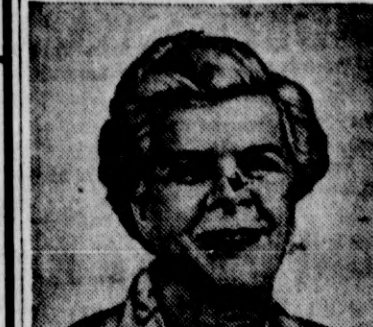

POLICE KILL CAT
Police were required to kill a cat last night in Adams street, according to a report at police headquarters. Complaints from Rose avenue said cats were acting wild, and one had jumped at a woman carrying a baby. Other persons complained that cats were hiding beneath their porches, hence police went on a cat hunt.

The Umatilla tribe of Indians formerly lived near the junction of the Umatilla and the Columbia rivers in northeastern Oregon. They now are with the Cayuse and Wallawalla upon a reservation in the same neighborhood.

THE INQUIRING REPORTER

QUESTION: "Who usually wins the arguments in your home?"

ANSWER: (By Mrs. Emanuel Nolan, 7224 Cottage St., Phila., Pa.) "It all depends. On the subject of coffee, for example, there's never any argument. My husband and I agree that new, richer, 'custom-roasted' Boscul is the finest coffee we've ever tasted." Right! Only Boscul is "custom-roasted" before blending, by electronic control... to give you more flavor in every cup, more cups to every pound.

Alabama Governor Goes To New York

MONTGOMERY, Ala., March 11.—(INS)—Alabama Governor James E. Folsom left Montgomery early today for New York to keep his "date" with students at a New York modeling agency who voted him the nation's No. 1 leap year bachelor.

The man who boasted he kissed 50,000 women in his last governor's campaign assured aides this week that he'd "look up" the students at the Barbizon modeling school who voted him the top bachelor in the country.

American World Policy Discussed

House Committee Members Discuss American Military Aid Wherever It's Needed

WASHINGTON, March 11. (INS)—Republican members of the House Foreign Affairs Committee today discussed establishment of an American world policy of military aid and "wherever our interests require it."

This was disclosed by Rep. Vorys (R) Ohio, who acted as spokesman for the GOP group.

Vorys emphasized that military aid was only one of four possibilities being discussed by the GOP members of the committee, which is drawing up legislation on economic and military aid for Western Europe, Greece and Turkey, and China.

No Decision Reached

He told newsmen that no decision was reached and that GOP members would meet again this afternoon to discuss the matter further.

Vorys said that the members discussed the "possibility" of writing into the legislation for a "basic economic policy" and "a policy of world-wide military assistance wherever our interests require it."

He said the proposed military aid policy if accepted by the committee would be written into the preamble of the foreign aid legislation and would set forth the intent of Congress and the nation.

Vorys declared under questioning that the military policy would cover China, Greece, Turkey and other nations "where our interests were involved" under circumstances that might require military backing as well as economic aid.

Are Undecided

The Congressman stated that the Republican members had not yet decided whether to lump all foreign aid into one bill or to approve first just a European recovery program in response to the administration's request.

Vorys said the GOP members discussed adoption of one of the four following plans: (1) EARP alone; (2) economic aid to Europe and China; (3) economic aid to Europe and China, plus both economic and military aid to Greece and Turkey; and (4) economic aid to Europe, China, Greece and Turkey, plus a world-wide policy of military assistance.

Selective Service System Could Be Quickly Activated

HARRISBURG, March 11. (INS)—Pennsylvania's selective service system today is ready to be activated "within 24 hours" in event of a national emergency.

"It would not take longer than 48 hours to get the selective service system back in operation," according to State Adjutant General Frank A. Weber.

He pointed out that a section of the newly authorized state staff of the adjutant general's office will act as the "immediate working headquarters" for any future conscription.

The selective service unit, designed for a peak strength of 27 officers and 44 enlisted men, will plan and administer reactivation of the draft in a national emergency or in event of congressional approval of a universal military training program, he said.

Former selective service personnel, trained in draft procedure, will comprise the unit which will have access to draft records of World War II.

Weber said he and the state staff will meet with adjutant generals and state staffs of other states April 8-20 in the second army area at Fort Meade, Md., to confer on conscription procedures with Maj. Gen. Lewis B. Hershey, chief of national selective service records.

Russia Threatens To Walk Out Of Four-Power Confab

By PIERRE J. HUSS (U. S. Staff Correspondent)

LAKE SUCCESS, N. Y., March 11.—Russia threatened to walk out of the four-power Palestine confab today if the Jews and Arabs are asked to participate.

Soviet Delegate Andrei Gromyko evidently was determined to block any effort at direct conciliation between the Jews and the Arabs as threatened by the United States.

He said that the security council had not authorized the four powers to consult with the Jewish Agency, the Arab higher committee or with the Palestine commission.

The Gromyko threat was precipitated when U. S. Representative Warren R. Austin opened the third meeting of the representatives of France, China, Russia and the United States in his mid-Manhattan office by proposing that the three groups be consulted in addition to the mandatory power.

Hoover Key Figure In Ownership Of Diaries Of Goebbels

Justice Department Investigation Under Way To Determine Ownership

WASHINGTON, Mar. 11.—(INS)—

Former President Herbert Hoover ranks as a key figure today in an intensive Justice Department investigation to determine ownership of the diaries of Joseph Goebbels, Adolf Hitler's Nazi propaganda minister.

Hoover, who obtained the diaries in the course of a food inspection visit to Europe in 1946, is expected to be helpful in solving the knotty problem which confronts the department's alien property office.

The manuscripts soon will be placed in the Stanford University library by the ex-chief executive. All royalties, fees and payments accruing from their forthcoming publication will be impounded by the government until ownership of the diaries is established.

The manuscripts are reported to have been found in the Russian zone of Germany after having been sold as waste paper. The German who bought the "waste paper" took the diaries into the American zone and sold them to one of Hoover's travelling companions.

Had Received Permission It is understood that Hoover previously had received permission from the army to buy up documents of historical significance to enrich the Stanford library.

Although he is reported to have informed the army of this particular acquisition, there are indications that the army failed to note the import of his purchase.

The first intimation to alien property officials that the diaries had been "discovered" and had fallen into American hands was when a date for their commercial publication was announced recently.

The Justice department began an immediate investigation which resulted in the arrangements for placing the manuscripts and revenues in trust for the United States pending settlement of the ownership question.

Goebbels' diaries are said to include about 7,000 pages of day-by-day observations noted down by the Nazi propaganda minister.

It is believed that the personal journal may give the first authoritative, first-hand account of the machinations and top secret maneuvering of the Nazi high command.

Edmund Spenser, author of the "Faery Queen," was described as "one of the very diamonds of her majesty's (Queen Elizabeth's) court."

In the 1850's, the French nobility went on a pear-raising spree, vying with each other to see whose pears could best survive the winter. Many of today's hardy fall and winter varieties owe their existence to contests among the French counts and viscounts of a century ago.

Officials of the Pennsylvania Electric Co. said the plant would be in full operation by June or July.

Electricity for both industrial and domestic use in the Warren area now comes from plants in Erie and Johnstown.

Previously, she had called from Gettysburg, Pa., saying the kidnapers, identified as Wilford Jenkins, 31, also of McKeesport, was holding a gun in her back as she talked.

In her calls to Mrs. Carey she said she had not been harmed.

Highland L. T. L.

On March 8 some 60 children assembled at Highland U. P. church to participate in the annual L. T. L. March "dues round-up" and the regular meeting of the organization.

In her most fascinating and warm manner, Mrs. Oliver Hurst gave two excellent stories. Commemorating the Easter season, she presented in flannelgraph "The Easter Flower", which was followed by a temperance object lesson, "The Birthday Present".

Mrs. Morrow, president, read the scripture for the devotional service, and the group pledged allegiance to the flag.

Preceding the lesson period, Mrs. Hurst led in the singing of temperance songs and jingles and taught new members the temperance pledge.

Climaxing the social hour, the children marched to the basement, where they were engaged in a lively Easter egg hunt.

Each child present for the first time was given a special treat as they left the church, and all were invited to return on April 12 for the next regular meeting.

Mrs. D. W. Nesbit and Mrs. Robert Weber assisted in the execution of the plans for this program.

Teacher Salary Issue Before School Board

Action On Proposals Is De- layed Due To Tie Vote At Session

Due to a four-four tie vote on Wednesday evening over a proposed schedule of salary increases for school teachers in the public school system, no action could be had. The matter was debated for about two hours.

In an effort to settle this matter and also to complete the 1948-49 budget for display and set the tax levy for the year, a special meeting has been called for Saturday night, March 13.

Resore 1947-48 Increases
The first order of business Wednesday night was a motion to rescind a vote of the February meeting, which had unintentionally revoked salary adjustments given locally for the 1947-48 term. This motion carried unanimously.

The matter of salary adjustments for teachers for the coming year then came before the board. Superintendent Frank L. Burton had presented a tentative schedule of increases which would equalize some existing inequities.

Several members of the board objected to the schedule upon the ground that the schedule would give some teachers as high as \$450 per year increases while others would get as low as \$50. This they felt was inequitable.

The motion to accept Dr. Burton's schedule was put and the long discussion started. Finally, upon vote the result showed four favoring it, four opposing it and one member, Alex Samuels, not voting. Mr. Samuels said he wished to have more time to examine the schedule and to investigate the salary question further.

Other Possibilities
A number of other proposals were discussed but not acted upon. One would be to give all teachers the mandated increase of \$150 required by law, and then to add the \$150 increase due them for the 1948-50 term now. This would apply to all teachers.

Another proposal would give all teachers an "across the board"

salary adjustment for the coming term. Still another would be to equalize some inequities which appear and then make a salary adjustment for the entire teaching staff.

Some definite action must be had within a short time if the budget is to be prepared for public display in time. At the present time the tax levy is twenty mills. A tentative budget has been prepared based upon the mandated salaries. This budget could be maintained within the limits of the twenty mill levy which has existed for several years.

If salary increases are made, and it seems likely there will be some increases made, the tax levy would probably have to be raised to twenty-one mills.

The board members hope that

the entire matter may be disposed of at the special meeting of March 13.

BABY MARKET LAWS
WASHINGTON, D. C.—(INS)—The "seller's market" in babies is hastening revision of many state adoption laws to protect both infants and parents. Reports cited by the American Public Welfare Association indicate that most state adoption legislation, recently passed or proposed, aims at curbing the black market in adoptions or at modernizing out-moded adoption statutes. Sixteen states revised adoption laws last year and 1948 legislatures are considering other changes.

Federal prisons in the United States are under the control of the attorney general.

ELECTORAL MONOPOLY
ITHACA—(INS)—Clifford L. Morgan was elected to three different offices in one day. At the annual meeting of the Fire Underwriters Association in Albany, he was elected president for the

fourth successive year. He then was chosen a director of the Corner Holding Corporation, Albany, a real estate holding company for an insurance group. Morgan returned to Ithaca by automobile

that evening. There he was elected commander of the St. Augustine Commandery 33, Knights Templar. Radio waves have the same velocity as light and all other similar waves.

SUCTION HARVESTER
DAVIS, Calif.—(INS)—A new-type suction almond harvester, which recovers 99.5 percent of all nuts from smooth ground recently had California ranchers agape.

The almond growers recently watched a demonstration of the machine at a Farm Machinery Conference of the University of California College of Agriculture. Drive slow—children move fast.

TRAVEL WARNING

NEW YORK—(INS)—Harry M. Paulsen, president of the American Society of Travel Agents, recently issued a warning that the demand for ship accommodations across the Atlantic, during the peak summer months, more than likely will exceed the supply. There still are only 32 good-class passenger ships in service to both Atlantic and Mediterranean ports. The total monthly passenger-carrying capacity of those 32 ships is 27,632.

A few hundred wild ponies still roam the banks of North Carolina and are rounded up each year.

The Worth of Christian Character

Highlights On The Sunday School Lesson

(The International Lesson on the above topic for March 14 is Acts 20:17-38; Ephesians 5:6-21.)

By NEWMAN CAMPBELL

Ancient Palestine, today the scene of riot and worse as Arab and Jew contend for the possession of that Holy Land, was torn with religious differences in the days of St. Paul.

Paul, whose magnificent letters—known as the Epistles—to the various congregations he had founded, are a grand contribution to the New Testament, became a prisoner of the Romans as a result of a religious riot in Jerusalem.

Though he felt certain that persecution and imprisonment lay in wait for him at the end of his journey, the great missionary set out from Miletus, historic Mediterranean seaport in Asia Minor, for Jerusalem. This must have been

Paul's last missionary journey—there being no evidence of a later one.

En route to Jerusalem Paul stopped over in the city of Ephesus; and it is on the words that the great missionary spoke to his followers there that our lesson for today is based.

At Ephesus Paul summoned the elders of the church to him. They were the duly appointed officers of the Ephesian church, although we do not know who they were nor how appointed. When they had gathered he reminded them of his work among them, telling how he served "the Lord with all the humility of mind, and with many tears, and temptations, which befell me by the lying in wait of the Jews." The Jews who would not accept his gospel, accused him of all sorts of what they considered heresies, whereas, Paul says, he

was "testifying both to the Jews and also to the Greeks repentance toward God, and faith toward our Lord Jesus Christ."

Now, he told these friends, "I go bound in the spirit unto Jerusalem, not knowing the things that shall befall me there: Save that the Holy Ghost witnesseth in every city, saying that bonds and afflictions abide me." None of the things that he feared moved him from his purpose; even his life he counted not dear, only that he hoped he might "finish my course with joy, and the ministry which I have received of the Lord Jesus, to testify the gospel of the grace of God."

"And now, behold, I know that ye all, among whom I have gone preaching the kingdom of God, shall see my face no more." Paul was loved and admired. He was a very real "tower of strength" to these early Christians. Imagine, then, how sad they must have felt when they thought of him going into danger, possibly, even very probably, losing his life, and visiting them no more to cheer, advise and help them in their trials and discouragements.

He warned them of differences

of opinion that would arise within their ranks to draw disciples away from them, and cautioned them to watch for signs of same.

"And now, brethren, I commend you to God, and to the word of His grace, which is able to build you up, and to give you an inheritance among all them which are sanctified. I have coveted no man's silver, or gold, or apparel. Yea, ye yourselves know that these hands have ministered unto my necessities, and to them that were with me."

Then Paul kneeled and prayed with these friends. They all "wept sore," and accompanied him to the ship that would take him once more to Palestine.

We do not know if he ever went to Ephesus again. There is no record of such a return visit. He was a prisoner when he wrote his epistle to the Ephesians, setting forth what the life of a Christian should be, instructing and exhorting them.

"Have no fellowship with the works of darkness, but rather prove them," he writes. "Wake up those who are sleeping so that they may 'walk in the light,' a beautiful phrase for living a righteous life. "And be not drunken with wine,

wherein is riot, but be filled with the Spirit." "Wine and the Holy Spirit both lift a man out of himself," says a commentator. But while wine gives a false sense of joy, and makes a man forget his troubles for a time, it may also make him arrogant, proud, even quarrelsome and murderous. The

Holy Spirit gives a true joy, which lasts and never disappoints. (Copyright, 1948, King Features Syndicate, Inc.)

IN THE OPEN

The trout streams are tumbling down their mountain strongholds, racing boisterously across hemlock-shaded flats and brawling noisily through rocky defiles as they shoulder their way out to the wide valley bottoms. The gamy brookies have dropped down stream from their spawning beds, where last fall they deposited the eggs which will hatch as the April sun warms the shallow flats near the headwaters.

Now as they note the lengthening days these darting jewels of the swift water begin to develop an appetite and they seek out pools and eddies where they can lie in wait for whatever provender the stream rolls past the doorstep. They face little competition, for most of the lazier fishes prefer the easier life of the slower currents far downstream.

Shiners Are On Move
In the many nameless "runs" which play second fiddle to the bigger waters, the black-nosed dace and the common shiner are again on the move. A few tiny sunfish and the sculpin known as the miller's thumb are usually seen in company with the schools which dart about excitedly as the countryman's shadow falls across the narrow pools.

As a sort of trial heat for the heavy water work of the troutling season just down the calendar a few weeks, I donned knee boots and splashed along with a robust streamer which threads a valley not too far from our home doorstep. About the only fish to be found in this water is the picture on the side of a rusting salmon can, but at least it's a stream, and at this time of the year it works up a real enthusiasm.

I came to a sand bar where many bits of debris had found lodgment. Reverting to boyhood days I spent a good half hour

kicking these chunks into the main current, where they immediately became the caravels of childhood, riding bravely down the rapids to the sea. That was one of the most enjoyable half hours I have "put in" in recent memory.

No Signs Of Trillium
I turned abruptly into the hills through a narrow draw where a forest brook steps gracefully down a rough stone staircase. Here is a sun-warmed bank where the snow trillium flaunts its white beauty while other so-called early flowers are still wrapped in the Winter sheath. There were no signs of the little trillium sprouting, but the hepatica is pushing its way into the new world, in company with the crocus and the peony and the daffodils in the lawn.

There were many intriguing bundles of twigs and leaves high in the taller trees along the hillside. They may have been nests of other years may have simply been accumulations which had lodged during heavy blows. I inspected each "nest" carefully but found no evidence of occupancy. Hidden in a gorge which I traversed for the first time was a sloping bank jammed full of narrow pools.

Christmas fern and the wild hydrangea. The Christmas fern puts on the most striking show in the March timberland. Its shining deep green fronds, new-washed by receding snows and the warm rains of "thaw" days, lie in carelessly draped artistry on the brown leaf mulch of the forest floor.

Much Huffing And Puffing
After much huffing and puffing I finally reached the ridge and came out onto an abandoned old field. A pair of hewn log structures, which had probably been sheds, stood in a tangled growth of aged and broken trees. Only the four sides of each building were

standing, but the timbers were sound and the axe-work precise. Turning back into the timber, I quartered down across a long slope which was frosted by the tiny first leaves of the lacy foliage of the Dutchman's breeches. For the first hundred yards or so this opening to the woods is a wide swale, and I picked up one of the colorful skunk cabbage drill points. Just beyond this swale a thick second growth is competing for survival across several acres of cut-over hillside. Here I encountered great patches of the club moss known as ground cedar.

Another mile along this hillside brought me to the abrupt drop over the ledges to the main stream

in the valley. Fresh diggings revealed where a groundhog has already been improving his holdings. I dropped down into the stream bed and splashed loudly up through the rushing white-water rips to the roadway and the waiting car.

SASSY FRASS

The Huichol and Cora Indians of Mexico send expeditions each year several hundred miles across the Sierras to hunt hikule, a narcotic cactus, which, taken in small doses, enables the consumer to endure long forced marches with neither food nor drink. The narcotic is used ceremonially by the Indians to induce religious ecstasies.

EVEN ROCK IS WORN AWAY

A steady fall of water—even though it be only a succession of little drops—will wear away stone over the course of the years. In just such a way, a steady succession of minor ailments will wear away the stone that is your constitution. That is why you are well advised to consult your physician periodically for thorough check-ups. These examinations will enable him to re-inforce your good health and help you keep it against the inroads of disease.

Refuses Motion For Acquittal In Meyers Case

WASHINGTON, March 11.—(INS)—Federal Judge Alexander Holtzoff today rejected a motion for a directed verdict of acquittal in Maj. Gen. Bennett E. Meyers' perjury trial after the defense rested without calling Meyers or any witness in his behalf.

The defense motion for a directed verdict was based on contention that the Senate subcommittee which brought Meyers' alleged war profiteering into the open was illegally created.

Closing arguments were to begin later today and the fate of the retired Air Force procurement officer may be in a jury's hands tomorrow.

WIFE INTRODUCING HUSBAND
Question: When I introduced a woman to my husband, should I say, "Mary, this is my husband," and then add "Jim, this is Mrs. Jones"? (2) How should a married woman sign her name to a letter and in a hotel register?

Answer: When a woman introduces her husband to one of her intimate friends, she does so in this way: "Mary, this is Jim." It is assumed that Mary has heard much about Jim and vice versa. In this case, all formality is dropped. If the friendship is not so close, she would say "Mrs. Jones, this is my husband." In which case they would be "Mrs. Jones" and "Mr. Smith" to each other.

(2) "Mary Jones." If she is writing to someone who does not know how to address her, she should add in parenthesis (Mrs. J. E. Smith). In a hotel register, she is Mrs. J. E. or John E. Smith.

Question: I am to be married in the personage and plan to wear an afternoon dress and light weight dress coat. My aunt says that when one is not married in a bridal attire, she should wear a suit. I do not look well in suits and do not wish to buy one if it is not necessary. Is it?

Answer: Suits are generally worn for such weddings but not necessarily so. You may wear anything that is suitable for traveling if you do not intend to go home and change.

Question: Is it customary and proper for a girl receiving her engagement ring to present her fiancé with a gift? If so, what is proper to give?

Answer: It is not customary but may be done. Anything for his personal use would be appropriate.

Question: The sister of one of my best friends is to be married. My husband and I have received an invitation to the church ceremony but not to the reception. Tell me, please, if we must send a gift?

Answer: No gift is necessary. However, if in view of your friendship with the bride's sister you would like to send a gift, you may correctly do so.

Present your problems to Miss Marrel who will promptly mail personal replies to questions from readers enclosing stamped, self-addressed envelopes.

LEAKING GAS FUMES CAUSE OF CONCERN

City firemen were called to the Sno-Top restaurant on North Jefferson street at 9:45 p. m. Wednesday when a strong odor of gasoline was found in the restaurant. Investigation revealed the fumes were coming from the Kennedy & Herman garage at 12 West North street. Firemen ordered the gas appliances turned off in the restaurant as a precaution.

SECURES DUFFLE BAG

Mrs. L. M. Wilkinson, 501 West Clayton street, New Castle, called up county Sunday school headquarters and requested a duffle bag for use of the Opportunity Circle of the Mahoningtown Presbyterian church. The Lawrence County Sabbath School association is sponsoring this overseas relief project, and when the duffle bag is filled it will be sent by parcels post to the service center in Maryland, where contents will be cleaned and repaired before being sent to the needy in countries overseas.

Indict Murray And H. Garsson

BALTIMORE, Md., March 11.—(INS)—A federal grand jury in Baltimore today indicted Murray and Henry Garsson, alleged war profiteers, on charges of conspiracy to defraud the government in re-negotiation of wartime contracts.

The Garsson Brothers, along with former Rep. Andrew J. May of Kentucky, were convicted in Washington last year on bribery conspiracy charges.

COUNCIL APPROVES PAYMENT OF BILLS

During council meeting in city hall Thursday the city fathers approved payment of bills as follows: Manufacturers Light & Heat company, \$186.49; Conn Welding company, \$185.78; Hite Brothers, \$29.18; Davis Coal & Supply company, \$426.67; New Castle Duntile company, \$31.50; Atlas Equipment company, \$66.24; Elliott & Wadlington, \$84.55; J. R. Rick company, \$72.52; Frey Bros., \$61.53; Chick Fenton, \$35; Chamberlain Electric company, \$88.54; and Dutch Inn, \$27.50, the latter bill being for food furnished prisoners in the city jail.

The people of France gave the Statue of Liberty to the United States. They raised the money by popular subscription, in commemoration of the 100th anniversary of American independence.

Parents Refuse To Accept Body As That Of Son

Mr. and Mrs. Charles Blackinton
Believe Soldier-Son Is
Still Alive

LANESBORO, Pa., March 11.—(INS)—Mr. and Mrs. Charles Blackinton, of Lanesboro, are engaged in the sad, and perhaps fruitless, task of proving the war department was wrong when it listed their son killed in action during World War II.

From their Susquehanna County

home they are checking hospitals throughout the country and abroad for their 28-year-old son, Pfc. Charles J. Blackinton.

Body Refused
The government has offered to return the body of a soldier it believes to be her son to the parents but it has been refused.

"It is not my son, he is still alive," said Mrs. Blackinton. In support of her belief, Mrs. Blackinton points to a series of events.

On November 8, 1944, her son wrote and he was well but she subsequently learned he had been in a hospital. Mrs. Blackinton reports.

Mrs. Blackinton points out, an army chaplain wrote that her son had been sent to a hospital embarkation port in 1946.

"I know my boy is still alive and I'm sure that some day, some way I'll find him," says the determined mother.

THE LEFTIST BACK WALLACE

The right wing of the American Labor Party, a few years back, severed itself from that organization, which it charged was Communist-dominated, and formed the Liberal Party. Now the remaining left-wing is subjected to further amputation by the walkout from ALP leadership of members of the Amalgamated Clothing Workers, the United Automobile Workers, and the United Steel Workers, all CIO unions.

The left-wing of the left-wing remains, and there is no doubt in the world that it is run by the Communists and consistent followers of their party line.

Causing the split was the decision of the leftists to back Henry A. Wallace's third-party bid for the Presidency. The former Vice President is now assured the ALP nomination for what it is worth.

There was a time when it was worth a great deal, and it proved a potent factor in carrying New York State for Roosevelt at the last Presidential election. But the latest split leaves in considerably weakened. The Amalgamated Clothing Workers alone has 135,000 members in New York and had been considered the backbone of the ALP.

This development shows again

that only the extreme leftists in organized labor are attracted to Henry Wallace, and it is evident that his attraction for them is based not on anything he might offer labor, but on his conciliatory attitude toward Soviet Russia.—Philadelphia Inquirer.

Rio de Janeiro, which means "River of January," was so called because on January 1, 1531, Martin Alfonso sailed into the bay, and thinking he was at the mouth of a great river, christened it Rio de Janeiro.

Lake Tulainyo, which is one and one-half miles northeast of Mount Whitney, in California, is the highest lake in the United States having an area greater than one-tenth square mile. It is 12,865 feet above sea level.

Signs Of Spring Are Seen In Cascade Park Tour

Just a few more good days with plenty of sunshine beaming down, and most traces of the winter will be all past at Cascade Park. If Manager Chris Coulthard had anything to do with it. Strolling over a bit of the large acreage which is devoted to the relaxation and amusement of hard working city and county residents this week, signs of spring were indicated on every hand.

One of the most consoling thoughts in the mind of Mr. Coulthard was the good condition the past heavy winter left almost every building and other equipment throughout the 47-acre pleasure area. A few of the older trees which bore some dead limbs were stripped of the dangerous boughs by high winds thus eliminating the high climb that is necessary some times to bring down the deadwood which could fall and injure those below.

Already, numerous birds have encamped themselves throughout the park trees and shrubbery emitting forth melodious tunes which somehow gives a fellow old-fashioned spring fever and the yen to hit for the wide open spaces. Even the nimble squirrels

which are active throughout the winter show evidences of the warm spring days ahead as they flit up and down the large oaks and other large trees.

Coulthard and his caretakers have not been napping either during the winter months when more or less of a stillness settles over the park. Canas and dahlias were sprouting in hotbeds and other receptacles and ready to set out as soon as weather conditions permit and danger of frost is past. Some shrubbery trimming was under way on Tuesday during the visit of the inquiring reporter. The ceaseless care given to the flowers and shrubs by the workmen in the spring and through the summer rates the park as second to none as a natural beauty spot in this area.

The past winter saw more visitors to the park than usually visit it due to the fine ice skating offered on the seven-acre lake. During the coldest day, 16 inches of ice was measured on the lake. Several hundred local residents took advantage of the ice skating privilege while the ice lasted. At least two new concessions

will be found in the area this coming season and these will include a tumblebug and a shooting gallery. Other favorite amusement devices including the merry-go-round, Dodge'em and sea plane will be back in operation when the park is officially opened on May 30, Memorial Day.

Requests are being received now for the numerous picnics that come to the park annually. Johnson Bronze company and their employees will take over the park during August; the Gas company has already signed up and word has been received the newsboys of Pittsburgh will be brought here in a special train to have their annual outing here during the summer.

With minor repairs to the park bridge system, general clean up and some elbow grease by concessionaires, in getting their particular stand or amusement spot opened up, all things point to a successful park year for 1948 starting on Memorial Day and continuing through Labor Day.

Sen. Martin Refutes Presidential Claims

WASHINGTON, March 11.—(INS)—U. S. Sen. Edward Martin, endorsed by the Pennsylvania GOP Congressional Delegation for the Republican presidential nomination, claims today he is not a candidate.

"I am not now nor have I been a candidate for the Republican nomination for the presidency or any other office," Martin said in a statement issued at Washington yesterday. It was a reply to a resolution adopted by the delegation naming him its "unanimous choice" for president.

Martin stated: "My only ambition is to have the Republican party go into the 1948 presidential campaign united under the leadership of a candidate strong in patriotism, effective in administration and steadfast in courage to assure the United States its rightful place in a peaceful world."

The best proof that the earth is round is that its shadow on the moon, at the time of eclipse, always is circular. Nothing but a ball will always cast a circular shadow no matter how you hold it. In addition, we can measure the earth's curvature, and we can sail around it.

The Wars of Roses, which was a protracted civil war between the houses of Lancaster and York, rival claimants to the English throne, were so called from the fact that the insignia of the House of Lancaster was a white rose and that of the House of York a red rose.

A total of 1,395,617 persons died in the United States in 1946. The number seems large, yet it represents 6,102 fewer than in 1945.

Nine Pleasing Bouts Feature Arena Fight Card

Injury To Santafante Forces Cancellation Of Top Amateur "Go"

One technical knockout and nine knockdowns featured the semi-monthly amateur fistic promotion of the Jefferson A. C. in The Arena last night, which consisted of nine bouts, one being extra because, Sam Santafante showed up with a broken nose and the club physician wouldn't permit him to enter the ring against Riseri Ronzi. Hence, Hawthorne Turner and Jimmy O'Hara, both of Youngstown, met in the final bout, and Turner took the three round decision.

All the fights on the Evening's evenin' were good. The TKO was recorded by Tex Martin, novice lightweight GG champion of Youngstown, over Freddy Mays, also of Youngstown, in the third round. Tex previously had flogged Mays six times, and Referee Ray Leyshock stopped the fight. Joe Vitale, 140, of New Castle scored two knockdowns over Don McMillen, Youngstown, in the second round. His style and aggressiveness was too much for McMillen. At the end of the fight Vitale received the decision.

The other fights ended as follows:

Johnny Hobart, Niles, decisioned Johnny Merrill, Youngstown, 147, in three rounds. It was a good fight with Hobart proving too sharp a puncher and too clever for Merrill.

Bobby Gilford, Youngstown, decisioned Johnny Williams, Warren, 124, in three rounds. Gilford forced the fighting. The bout was good.

Johnny Kay, Youngstown, decisioned Kid Charity, Youngstown, 147, in three rounds. The bout started like a sephy and ended in a storm of punches with Charity firing toward the end. The fans liked the battle.

Frankie Lentine Wins
Bobby Wilson, Youngstown, decisioned Warren Craft, Youngstown, 135, in three rounds. Both were light punchers. The bell saved Wilson.

Briefs From Major Camps

(By International News Service)

Almost all major league teams were swinging into competitive action today but the world champion New York Yankees still grabbed "grapefruit league" honors with their play.

The Bronx bombers, victorious the day before in an 8-6 game with the Detroit Tigers, got two hits off three St. Louis Cardinal pitchers but managed to defeat the Redbirds 2-0.

The Yanks scored their first run off Lefty Alpha Brazil without a hit, and then nipped right-hander Jim Hearn for another run in the

seventh. Ken Johnson, a southpaw, was the other Cardinal hurler. Brazil did not give up a hit.

Three Yankee pitching "potentials" Vic Raschi, Karl Drews, and Randy Gumpert—all righties—shut out the Cards with four hits.

The National League champion Brooklyn Dodgers clubbed their Montreal Royal "Cousins" 8-2 at the Brooks' Dominical Republic base.

The Boston Braves clubbed three Cincinnati Red pitchers for 14 runs on 14 hits to damp Johnny Neun's men 14-3.

The Detroit Tigers on their first exhibition game of the year with a 14-5 trouncing of the Philadelphia Phillies. Rookie first baseman Al Blair hit a home run for the Phils in the second inning with one on.

St. Louis Browns continued to get good pitching following yesterday's 7-0 shutout, but the Browns finally bowed in the 11th inning 3-2 to the Chicago Cubs.

The Pittsburgh Pirates made it an even-split for inter-league clashes with a 6-3 victory over the Chicago White Sox. The veteran outfielder, Max West, making another comeback attempt, sewed up the game for the Bucs with a sixth-inning, three-run four-bagger.

Walcott Waltzes But Opponent Says He'll K.O. Louis

CHICAGO, March 11.—(INS)—"He'll knock out Joe Louis sure." This was a studied description of Jersey Joe Walcott, delivered by one Austin Johnson, who last night joined with Jersey Joe in as a stately display of boxing as ever drove 1,500 patrons to take the pledge.

Walcott's first appearance since his near-conquest of heavyweight champion Louis Dec. 5 was billed as a four-round exhibition. It was a four-round exhibition instead. One punch was recorded by alert ring-side observers. This error occurred in the final round when Walcott landed one of his 16-ounce mittens on Johnson's face.

Johnson, an Atlantic City product of uncertain vintage, failed to land a blow, and Walcott wasn't being elusive.

After the bout was over, however, an awed Johnson told news-men.

"Boy, that Walcott's full of tricks. He may not be able to beat some of the boys Joe beats, but he'll knock Joe out sure."

More than 40 candidates will participate in Spring football drills at Penn State.

Quakers, Sharpshooters, Mumblers Win In Tourney

New Castle's big city recreation tourney will come to a close tonight at the George Washington floor with the playing of the mid-get, junior and senior championship games. The first game will be played at 6:30 p. m.

Last night before a good sized crowd the Penn Quakers defeated the Mahoning Katz by the score of 34 to 21. Lavaggio with 14 points was high man for the Quakers while Ferranti was high for Mahoning with seven points.

Sharpshooters Win
The unexpected happened when the Sharpshooters of Croton hit the hoop the most times and took the measure of the Mumblers by the score of 21 to 26. The game was well played and the Croton boys won the right to meet the Penn Quakers for the junior crown.

Shewman was high man for the Mumblers with 13 and Marzo was high for the Sharpshooters with 13 points.

Pythons Swamp Shamrocks
In the third and final game of the evening the favorite Pythons defeated the Shamrocks of the West Side by the score of 35 to 16. The high point man for the Pythons was Lewis with 12 points and being assisted by Hares and Thomas with seven each. Carrigan with nine points was best for the West Siders.

The results of the tourney have been very gratifying to the recreation board and a banner crowd is looked for tonight starting at 8:30. Small admission of 10 cents and 25 cents for adults will be asked.

SUNSET LIONS WIN
Wednesday night the Sunset Lions took their 12th straight win from the St. Mary's team at the Catholic Center, 41-37. Liversage, Lewis and Redman were outstanding for the victors.

Wampum Hands Epworth Quint First Loop Loss

Epworth team of the Senior Church league lost its first game of the second half last night, Wampum pulling the trick 47-43 in a torrid game.

Frankie Procopio led the way for Wampum with 16 points, while Wainio, with 19, sparkled for the Epworths.

Don Reed flung in 20 points to lead the Third U. P. five to a 49-25 win over the Crotons and in the C-I loop battle the Shenango Pottery steamed past the United 46-30 with every Potter hitting the scoring column.

Leadership will be at stake on Thursday night when Wampum and the First Baptists clash to decide which team will continue in the second-half pacing slot. In the second game the First Methodists meet the First Methodists and the Bronze Local 69 tangles with the American Legion.

Garden Tourney Starts Tonight

NEW YORK, March 11.—(INS)—Hand-picked basketball teams from all over the nation will fight it out at Madison Square Garden starting tonight for the coveted invitation championship with Western Kentucky State college the sizzling favorite.

These kids from the little school with an enrollment of 1,800 bring a splash of colorful tradition to the big city along with a remarkable record and a famed coach whose name in full is Ed (Throw-the-Towel) Diddle.

The favorites meet LaSalle tonight in one of two games on the opening schedule, and go into the competition with a season record of 26 victories against 1 defeat.

In the other tussle tonight, St. Louis university will meet Bowling Green, this game pairing two of the top cage powerhouses of the Middle West.

He knocked out Bobby Claus in four rounds at Little Rock. Joe Cardko of Youngstown lost an eight round decision to Bernie Bernard in New York. Buster Tyler also won from Tommy Bell of Youngstown in a New York 10-rounder. . . . Tutries have not yet made their appearance. "They'll not come out until snakes emerge from their holes" said Cowden Moore who plans a fishing and camping expedition to Pymatuning this summer.

Interesting to note are the winter habits of the so-called "seven sleepers", all of which are to be found in Pennsylvania. In this locality the hibernating periods of the bear, woodchuck, bat, raccoon, chipmunk, skunk and jumping mouse vary with the length and severity of extremely cold periods and the depth of snow. Unseasonably warm weather in winter often wakens the hibernators and causes them to forage for food until cold or snow ends the activity. During their hibernation periods these "sleepers" rest in a torpid state that sometimes amounts, almost, to suspended animation. Then the animals seldom stir, breath very lightly, with long pauses between breaths, and, for sustenance, draw upon their bodies' fat reserve.

Meyer Pleased As Bucs Defeat White Sox, 6-3

HOLLYWOOD, Calif., March 11.—(INS)—Manager Billy Meyer appeared to be more than satisfied with the performance turned in by his Pirates in yesterday's 6-3 win over the Chicago White Sox.

The Pirate pitching was better than good as the Chixox were limited to seven hits. Nick Strincevich and Elmer Singleton were particularly effective in their three inning stints. Vic Lombardi's performance was adequate.

The Bucs in winning their third straight exhibition game once again had the home run come through for them. This time it was Max West, up from the Pacific Coast league for another shot, whose three-run homer was the difference.

Stan Rojek and Clyde Klutz

continued to sparkle both afield and at bat. The latter seems to have won the first string catching job.

Elks Defeated In Semi-Finals

Despite a great show by Freddy Wimer with 22 points, the New Castle Elks were defeated in the semi-finals at Cortland, Ohio last night, 69 to 58 by the Cuyhoga Falls Stamping team.

The Elks will return to Cortland for a consolation game Saturday night to the championship game. Bob Pitzer continued his fine play last night getting eight points, as did Cash Koszels, Don Watters piled in six points.

The Elks will now concentrate on the final game with the Pulaski "Big Five" Saturday March 27 at the Washington gym floor.

Jackie Tighe, Penn State captain, comes from a fighting family. His father was a pro 25 years ago.

City Hall

Zoning Change To Be Provided

Euclid Avenue Designation
To Be Made "B" Residence District

OTHER ACTION IN COUNCIL SESSION

Council met Thursday morning in city hall where Finance Director Albert A. Hoyland submitted a bill changing the north and south side of Euclid avenue from an 'A' to a 'B' residence district. The measure was referred to committee.

A 'B' zone now exists on Highland, Sheridan, Garfield and Leasure avenues, and on Delaware avenue, south of Euclid avenue. The Hoyland bill as presented makes the district uniform.

If approved, following a hearing, it will pave the way for permission to erect an apartment dwelling in Euclid avenue, between Highland and Delaware avenues.

A former bill placing the district in a 'D' zone will probably be voted out of committee with a negative recommendation.

Plans and specifications for the grading, curbing and paving of Harrison street were approved upon motion of Streets Director James Gibson. A report of the city engineer showed 72 percent of the owners and 69.74 percent of the foot frontage was represented on a petition which asked the improvement. However, this leaves approximately 600 feet unsigned, hence the matter was referred to Mr. Gibson to ascertain if it is possible to obtain more signers for the project. The school board has agreed to pay its assessment.

Council today authorized the attendance of Sealer of Weights and Inspector of Measures Harry Jones at a meeting to be held in Harrisburg, at which new laws affecting his department, will be aired. Council will check with county commissioners to learn if they will pay half of his expenses, because he is employed jointly by the city and council.

Following a request of Attorney Robert L. Wallace, Director James Gibson, referred to the city's legal bureau, a request that the New Castle district, First Methodist church be exempted of taxation on a small piece of land in the old Country club plot, Croton, which is used only for religious purposes.

Upon motion of Director Albert A. Hoyland, council exempted the school board of taxation on several lots acquired from the Standard Steel company, at the Pollock avenue school for playground purposes.

Mechanic street grading and paving plans were ordered approved today upon motion of Director James Gibson. There never has been a grade established and before an ordinance calling for the improvement is submitted property-owners abutting on Mechanic street will be interviewed.

Plans and specifications for the construction of a sanitary sewer in Meyer avenue, between Carlisle street and North Mercer street, will be acted upon finally Monday. The new sewer is planned to accommodate proposed construction and several properties which now have sewers, but which do not have the proper depth flow.

SUPER-SAFETY RECORD
AMBRIDGE, Pa.—(INS)—The Ambridge plant of U. S. Steel's American Bridge Co. recently set a record of 1,300,279 manhours of work without a single lost-time accident. The plant, the world's largest structural steel fabricating works, employs 3,500 men. As a result, the National Safety Council awarded the plant the council's distinguished service to safety award.

Joe Colone, Penn State's 1948 football captain, was the first wartime player to win a varsity berth as a freshman in 1942.

Villanova's 1948 football opener with Texas A. & M. will be played at Franklin field, home gridiron of the University of Pennsylvania.

Top Military Men Of Nation Scored By Congressman

California Congressman Charges
Nation's Defense Being
'Frittered Away'

By JAMES LEE
(U. S. Staff Correspondent)

WASHINGTON, March 11.—The vice chairman of the Congressional aviation policy board charged today that "brass hats" are "frittering away" the nation's defense "in a shocking extent that will amaze and horrify" the country.

Rep. Hinshaw (R), Calif., in one of the most strongly worded peace-time speeches ever made in Congress, bitterly denounced top military men for fighting among themselves while the world is threatened by war.

He attributed what he called a "shocking, deplorable situation" to

continued rivalries among the armed services.

Hinshaw asserted in a House speech prepared for delivery that the aviation policy board has learned that the joint chiefs of staff have failed to assign roles and missions to be undertaken by the various branches of the armed forces if war breaks out.

Secretary of Defense Forrestal has summoned the joint chiefs of staff into a week-end conference with orders to iron out such rivalries and differences and develop an overall plan for instant, combined action in the event of sudden war.

Hinshaw told the House that in view of the tense world situation he was reluctant to "expose the weaknesses" in the nation's defenses. He went on:

"But as a member of Congress, with responsibility to the people and my own conscience, I cannot be silent and see the strength of our national defense—the defense for which Congress has appropriated upward of 10 billion dollars for the present fiscal year—frittered away."

He asserted that the "frittering"

is caused by "confusion, neglect, and failure to provide the comprehensive, overall planning that is implicit in the policies laid down by Congress."

MARYKNOLL RELIEF

KYOTO, Japan.—(INS)—Almost 3,000 Japanese youngsters lined up before St. Francis Xavier church recently to receive a dose of worm medicine plus a gift of persimmons and vitamin tablets. The large scale worm dosing was arranged by Rev. Leo Steinbach, a Maryknoll priest from Charlton, Iowa, who has gained a reputation among Japanese officials for his widespread relief work.

Ohio State won the N. C. A. A. swimming championship in 1947. Named the top bowler of 1947 was Buddy Bomar who won \$17,400.

Joe Gans, considered the first lightweight champion, held the title from 1901 to 1908 when he was defeated by Battling Nelson.

SPORTSMEN MAY HAVE JOB AT HOME TO DO

Sportsmen can be included in that group of persons who can use spare time in off seasons for catching up on odd jobs, or in getting ready for their next try with rod or gun.

For safe straight shooting, a clean, well-oiled gun can't be beat, so check up on that deer rifle or shotgun you used last fall. And if you put a cork or oily rag in the muzzle to keep out dust, remember to remove before shooting. Otherwise, a bad accident or ruined firearm may result.

For the benefit of successful deer hunters who have been unable to dispose entirely of the deer they bagged last December, a 4-month extension may be obtained from the Pennsylvania Game Commission upon payment of the usual dollar fee.

With crow and vermin shooting popular in many rural sections, keep in mind also that the 3-shell limit for pump guns in any wild bird or animal shooting continues in effect.

For the first time in many years, the beaver trapping season February 15 to March 1 is state-wide. And in looking ahead to the next fishing season, sportsmen are overhauling the fishing equipment, and laying in needed replacements and new supplies since stocks continue to be low.

Pittsburgh Cabs Return To Streets

PITTSBURGH, March 11.—(INS)—Pittsburgh's taxi cab service returned to normal with the 6 a. m. shift this morning as the 24-day Yellow Cab strike officially ended. The strike, which in its early days was marked by one killing and numerous disorders, ended when the new contract was signed by representatives of the Yellow Cab Company and the AFL Taxi Driver's Union, Local 128.

Contract Signed

The contract, signed at 5 p. m. Wednesday, runs to February 6, 1949.

As a result of the lengthy dispute the management regained certain "management prerogatives," which it held the union had assumed. The men received better vacation and insurance programs and some minor working condition changes.

There was no change in wages, which remain at 45 per cent of the meter, against a \$4 dollar a day guarantee.

FARM WAGE RATES

HARRISBURG — Average farm wage rates in Pennsylvania for the year 1947 were 384 per cent of the 1910-1914 level, State Secretary of Agriculture Miles Horst announced today. This is the highest rate ever known in the state and represents part of the general increase in all costs of farming operations within that period, he declared.
